Company History

Two leading Civil Engineering firms with all their resources and senior Engineering in the management merged into a single organization in 1982 as private Limited Company.

The component companies were:-

M/S. Concord Builders Limited

M/S. Pragatee Builders Limited

M/S Concord Builders Limited was established in the year of 1967 and had been working in the field of Civil Engineering Construction. This organization was owned & operated by Mr. A. Latif (B.Sc. Civil Engr. -1941)

M/S Pragatee Builders Limited was established in the year 1972 and had been working in the various fields of Engineering Construction. This organization was owned & operated by Mr. Mizanur Rahman (B.Sc. Civil Engr. -1961)

The above two firms merged into a single Organization in the name of “Concord Pragatee Consortium Ltd” with the objective of making a border base and platform to fill up, as far as possible, the vacuums in the field of sophisticated Engineering Construction, and to assist the country to forge ahead with its ambitious gigantic development programmed taken up in recent years both with internal resources and external aid, grant and assistance and also to give a leader in augmenting our Country’s development efforts to acceptable standard. This has been made effective with galaxy of highly specialized Professionals, Technical expertise associated with this company and their long experience in their fields.

It is specially mentioned here that one of the Director of This Company is a sponsor Director of leading Bank of the Country, The National Bank Ltd. This company has participated in sponsoring an insurance Company and three of its Directors are on the Board of Directors of Insurance Company.

Company Synopsis

Concord Pragatee Consortium Ltd (CPC) was formed in 1982 with the objective of making a broader base and platform to fill up, as far as possible, the vacuums in the field of sophisticated engineering constructions and to assist the country to forge ahead with its ambitious gigantic development program.

From its beginning CPC Limited has, over the years, achieved several accolades for successfully completing a wide range of multi-million dollar Projects in the Construction Industry, in particular those related to Highways, Bridges, Buildings and Power Generation.

With an excellent track record spanning more than 28(Twenty Eight) years, CPC which is managed by a group of hands-on professional directors with many years of proven experience at home and abroad, to-day owns and operates a handsome fleet of construction equipment for civil engineering Jobs. CPC has become one of major contractors since its foundation in 1982 and has strongly positioned itself in the construction industry in Bangladesh with enviable reputation built over the years due to honest, sincere, reliable services and by promoting mutual understanding with the clients and by successfully achieving the goals of the company and clients in the execution of all projects by way of doing high quality work, reducing construction period and minimizing cost.

Today we are proud of our people. Clients have been satisfied with us, based entirely on our Engineers' established achievements and reliability. The most prominent strength behind CPC is the dedicated professionalism of our well-qualified personnel. Nothing is more precious than experience. Most of our managers and senior engineers started on the ground floor with us and worked their way up, developing their skill and versatility through job performance.

The key reasons for CPC's notable success is its ability to complete projects in time/ahead of schedule and its outstanding performance in quality assurance that can only be achieved through the dedication of all its workers, engineers and management. These strengths are the source of power that enables it to excel and win goodwill of clients.

Company Synopsis

CPC has created a niche in the Highway, Roads and Bridge construction and maintenance sector and at the present associated with reputed international contractors like Oriental Structural Engineers (OSE) -India, HCM Sdn Bhd (Malaysia) & Road Builders Pvt. Ltd- Singapore. Most of the Projects done by CPC are funded by WB, ADB & JICA and supervised by International Consultants.

Some Major example of Highway, Roads and Bridge and Building construction and maintenance sector are stated below:

Road Project:

- Road Project: Construction of Purbachal Link Road from Kanchan Bridge to Balu River Bridge.
- Construction and Reconstruction of 18.838 k.m. Road from Baraierhat to Wahedpur on Dhaka-Chittagong Highway, Contract-8, Jamuna Bridge Access Roads Project (ADB Project).

Bridge Project:

- Construction of 4 Nos. 50.00 m. pre-stressed Bridges on cast-in-situ pile under Construction of Purbachal Link Road Project.
- 526'-0" long Balanced cantilever Bridge at Bhaluka on Dhaka- Mymensingh Road on well and cast-in-situ pile foundation.

Building Project:

- Construction of Engine Hall, Utility Block, Fuel Treatment Building, Fire Fighting Structures, Administration Building, Water Treatment System Structures under Construction of 52 MW Dual fuel Dhaka North Power Plant Project, Phase-1 at Kodda, Gazipur. & 25 MW RPCL Dual Fuel Power Plant, Raozan, Chittagong.
- Construction of 10(Ten) storied Knitting Complex with a foundation of 15 (Fifteen) storied "Commercial Building" Located at Plot No.- 31, Block-K, Rupnagar Industrial Area, Section-2, Mirpur, Dhaka-1216.

Company Synopsis

CPC has opened a new wings in 2007 named Power Cell and it's business is infrastructure of Power Generation and pursued several Power Projects. The major credits in the Power Generation are stated below:-

> Sponsor of 55 MW Rental Power Plant at Ashuganj under BPDB- Gas Fired - Commercial Operation Started in Mar-2010

> EPC of 50 MW Dual Fuel Power Plant at Kodda, Gazipur under RPCL- HFO Fired - Contract in Progress since Aug-2010.

> EPC of 25 MW Dual Fuel Power Plant at Raozan, Chittagong under RPCL- HFO Fired - Contract in Progress since Feb-2011

Annual Turnover of CPCL for 2009, 2010, 2011, 2012 & 2013 are 2,485,170,690.00TK, 1,827,037,570.00TK, 3,598,374,027.00TK, 416,196,245.00TK, 2,536,310,391.00TK equivalent to US\$ 35,876,579.90, US\$ 25,823,852.58, US\$ 43,887,962.28 US\$30,278,148.43, & US\$ 32,612,966.32 respectively.

It's worth to mention here that one of the founder Director of the Company is a Sponsor Director of a leading bank of the Country- "**The National Bank Ltd.**" This Company has participated in sponsoring an Insurance Company and three of it's Directors are on the Board of Directors of the **Pragati Insurance Company Ltd.**

Message From Managing Director

On the occasion of this launching of CPC profile, I would like to acknowledge the support and generosity of our stakeholders on facilitating our stunning growth so far. I strongly believe that without their support it wasn't possible for a construction & engineering company like us to come across this far with a consistent track record of thirty years plus. Since our inception, our target was not only to meet the satisfaction of our clients rather to exceed it. And reaching such extra miles was only possible due to Team CPC's passion in Construction/Infrastructure and Power Generation Projects. The Board of Directors of CPC dared on chasing Govt. Mega Projects funded by World Bank, ADB & JICA and became successful in constructing Highways, Bridges, and Commercial Buildings. In recent years, the footprints are even spread into other sectors like Banking, Insurance, Super Shop/Retail, Pharmaceutical and Renewable Energy. Yet we consider ourselves as a young star of this Global Horizon, since to us business is an ever changing process with room for further improvement rather than an entity only. That's why our prime focus was to improve ourselves with respect to the quality of our services and also transforming ourselves to remain competitive in local & international arena.

We, the leaders of CPC always encourage our employees to carry out our projects with adequate responsibility and to embody the innovation within. Our dedicated engineering, R&D teams are always ready to devote themselves in any project that the Management would like to pursue.

It has always been my conviction that ethics and appropriate business conduct are prerequisites for success, irrespective of the field of business in which one is engaged, or the country in which one operates. I have confidence in our future success due to these strong foundations laid down by us from the last thirty years.

Appreciating our Govt. vision of transforming Bangladesh into a middle income country, I would like to have more supportive involvement from the Govt. in ensuring a level playing, transparent and investor-friendly business environment to facilitate the future growth and to propagate Government's Vision 2021. I strongly believe that we can achieve the target if the partnership between Govt. and the Private Sectors goes Hand in Hand.

Let us be enlightened and optimistic about a new shiny morning after every night.

Engr. Mushfiqur Rahman
Managing Director

Message From Chairman

The dawn of the new millennium brings with it a new challenge with a brighter economic outlook to the entire Asian region. We see more opportunities ahead us we enter into this new millennium. We are determined to continue to be a significant player in the construction industry. Along with opportunities we see challenges and competition that will make us strive harder in terms of our effort, efficiency and quality.

We are now ready for aggressive growth fed by its a new challenge with a brighter past experience and strengths. We believes construction is the foundation of the entire economy which opens the door of numerous opportunities. We expect to gain a significant share of construction projects in the next few years. We, at CPC, are proud to be playing an important role in the revival of the Country's development.

Md. Nasir Latif
Chairman

Ref. Memo No. PEL/PROJECT- 01/2010/CHAIR

Date : 10th August 2010

TO WHOM IT MAY CONCERN

This is to certify that Concord Pragatee Consortium Ltd. (CPCL) has successfully carried on the contract of Engineering, Procurement and Construction (EPC) of Ashuganj 55 MW Power Plant in B.Baria on Turn Key basis.

CPCL has completed the Project in time. They have done the job with due diligence to our satisfaction. The Plant is fully operational and running smoothly till date.

The salient features of the Project are given below :

- Plant Capacity : 60 MW
- Engine Gensets : 15 nos. x4.0MW, 1000 RPM
- Origin of Plant : MWM (Duetz), Germany
(Brand New M/Cs)
- Substation : 2 nos. x11/132KV, 45MVA, 50 Hz
- Contact Period : May 2009 upto February 2010
- Commissioning : March – 2010
- Project Cost : BDT 300 Crore
- Commercial Operation Date: 07 April, 2010

CPCL is managed by well qualified and efficient engineering, technical and management team. They are also equipped with all necessary Tools. It is also to be mentioned that they are financially sound to take up any Project of this size.

We, Precision Energy Limited, are very pleased with CPCL Performance and wish them success in all their upcoming Projects.

Provisional Acceptance Certificate

"25MW Dual-Fuel Raozan Power Plant Project (HFO/Gas Fired Engine Generating sets) having net Power output 25.812MW at site conditions (35°C, 1.013 bar, 98% RH) at Chittagong under Construction of 25MW Dual-Fuel Raozan Power Plant Project of RPCL"

As per contract Document Vol^m 2 of 3 (General Conditions) clause no.-66 (Contract no.-PUR-003/2010, dated:23/03/2011)

- A. Name of the Project: 25MW Dual-Fuel Raozan Power Plant Project (HFO/Gas Fired Engine Generating sets).
- B. Location: Noapara, Raozan, Chittagong.
- C. Date Of Performance Test: Initial Commercial Operation (ICO) started on 02/05/2013 and completed on 25.05.2013. Performance and Acceptance Test was conducted on 02/06/2013.
- D. This is to certify that 25MW Dual-Fuel Raozan Power Plant Project has completed its initial commercial operation satisfactorily as per clause no.-16.3.2(3) of contract Document vol-2 of 3 of Contract no.- PUR-003/2010 dated: 23/03/2011 as well as Performance and Acceptance test for output and heat rate of engine sets as per clause no.-16.3.2(4) on 02/06/2013. Warranty period for the plant starts from the effective date of PAC as per contract.
- E. Remarks: (a) Effective date of this PAC will be on 02/05/2013 (Starting Date of ICO).
(b) Deficiencies/Deviations as mentioned in the attached Punch list shall be completed/rectified by Concord Pragottee Consortium Ltd. (CPCL) not later than 100 days from issuance of this certificate to the full and final satisfaction of RPCL authority.

The issuance of this certificate shall not be construed as a release to the contractor from any contractual liability or responsibility.
